

## Everest Release Notes

Version: V52.24.18  
Release date: 11-May-2022

Please note: If your current firmware is 38.XX.XX or older, the update process for this firmware version requires unplugging and plugging back in Everest during the update process. Please follow the on-screen instructions provided by Base Camp™ during the update process closely.

### Improvements:

- Fixed an issue that prevented the profile sequence from working as intended (requires Base Camp™ version 1.1.8 or later)
